

8th Belgian Hadrontherapy Consortium Workshop

“From Bench to Bedside: Emerging Approaches in Hadron and FLASH Therapy”

Friday September 12, 2025

Online

Programme

10:00-10:05	Workshop Welcome and Introduction	Tom Boterberg Radiation oncologist, UZ Gent Sarah Baatout Deputy Institute Director of Nuclear Medical Applications, SCK CEN
10:05-10:40	Long-term Effect of Radiotherapy on the Brain (Behavioural Changes)	Maarten Lambrecht Radiation oncologist, UZ Leuven
10:40-11:20	Simulation of Chemical Phase in Radiotherapy: From Conventional to FLASH	Romain Tonneau Post-doc, UNamur
11:20-12:00	From Bench to Bedside: Radiobiology of High-LET Particles and their Clinical Potential	Silvana Miranda Post-doc, GSI
12:00-12:30	Break	
12:30-13:05	Should Every Brain Tumour Patient Receive Proton Therapy?	Dario Di Perri Radiation Oncologist, UZ Leuven Saint-Luc UClouvain
13:05-13:40	Proton Therapy for Paediatric Patients	Tom Boterberg Radiation oncologist, UZ Gent
13:40-14:15	How does FLASH-RT Challenge Radiobiology?	Sarah Baatout Deputy Director, SCK CEN
14:15-14:30	Concluding Remarks
